Dear Mr. Glickman:

Please do something about the lack of proper labeling of genetically engineered foods. We as Americans should have a choice in choosing what we put into our bodies. The only way we have a choice is if foods are properly labeled.

My health and the health of my family are important to me. Please do something about this immediately. We have a right to know what we are choosing to put into our bodies!

Thank you for your prompt attention to my request.

I remain,

Yours truly
Daisy Kennedy
